The discussion of agenda item 6 (The work of the Commission and its subsidiary bodies) in the Programme and Coordination segment will focus on questions relating to the interaction between various aspects of the Commission's programme of work which lend themselves to cross-sectoral cooperation, a more efficient concentration of resources and more coordinated programme delivery. The discussion is expected to cover aspects of the work which require the Commission's attention, decision or action. The chairpersons of the Principal Subsidiary Bodies will be invited to address the issue.

Thursday 6 April

Morning session: **Programme and Coordination Segment**

The discussion will focus on ECE assistance to the countries in transition: cooperation with regional groupings. It is noted that regional and subregional cooperation has assumed greater proportions in the region with the emergence of a number of new regional groupings. These are composed of ECE member States but to date there is no forum in which they all meet and their activities have not been the focus of attention within the ECE. Representatives of certain regional groupings will be invited to participate in the debate.
